Waterfall And Fountains

Water Falls

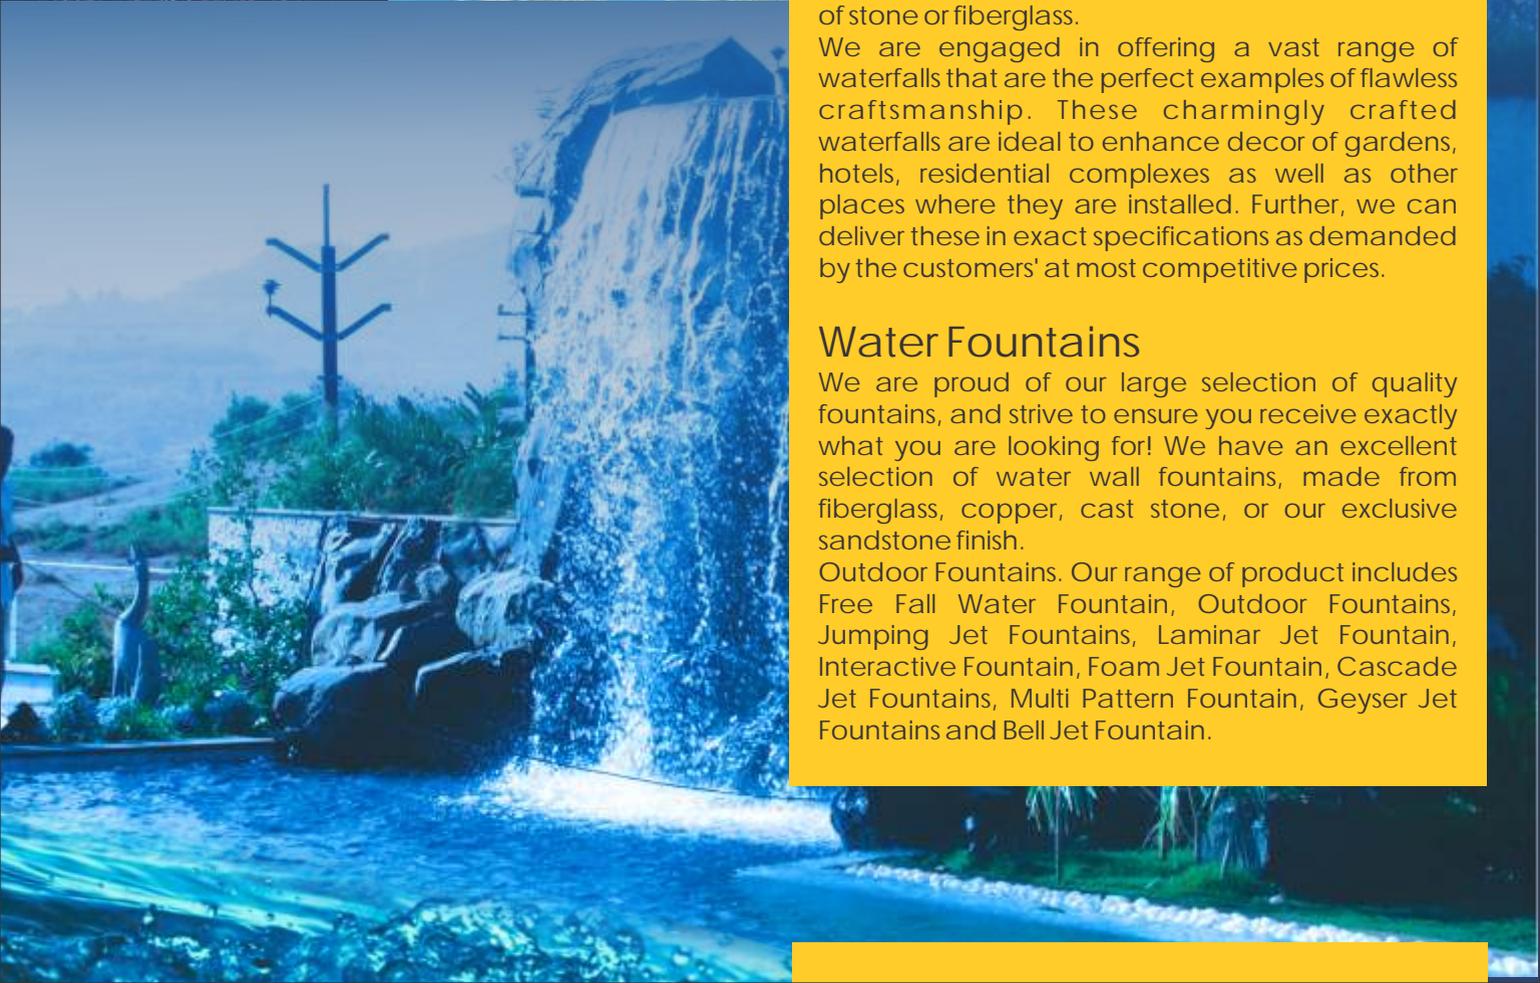

Nothing brings a garden to life like a waterfall. Modern fiberglass garden waterfalls are basically artificial waterfalls that have the appearance of natural stone. FRP MATERIAL is a nice alternative for the texture and appearance of carved, natural stone. The majority of garden waterfalls are made of stone or fiberglass.

We are engaged in offering a vast range of waterfalls that are the perfect examples of flawless craftsmanship. These charmingly crafted waterfalls are ideal to enhance decor of gardens, hotels, residential complexes as well as other places where they are installed. Further, we can deliver these in exact specifications as demanded by the customers' at most competitive prices.

Water Fountains

We are proud of our large selection of quality fountains, and strive to ensure you receive exactly what you are looking for! We have an excellent selection of water wall fountains, made from fiberglass, copper, cast stone, or our exclusive sandstone finish.

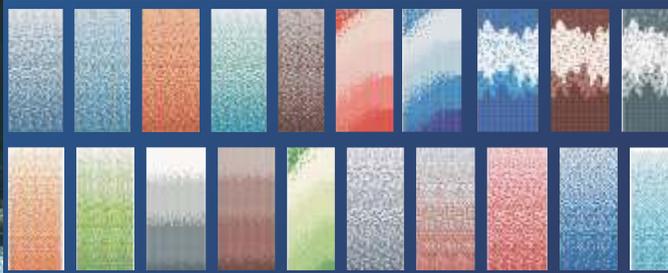

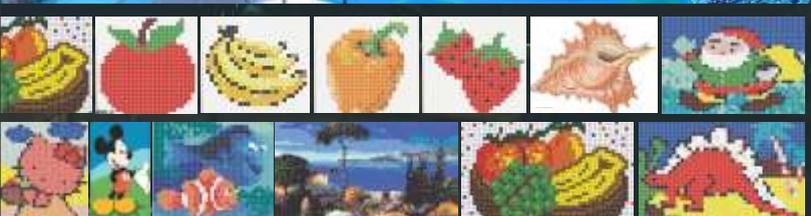

Outdoor Fountains. Our range of product includes Free Fall Water Fountain, Outdoor Fountains, Jumping Jet Fountains, Laminar Jet Fountain, Interactive Fountain, Foam Jet Fountain, Cascade Jet Fountains, Multi Pattern Fountain, Geyser Jet Fountains and Bell Jet Fountain.

Pool Tiling (Glass Mosaic)

- Plain Colors
- Random Mix
- Gradation
- Borders
- Lad Designs
- Hand cut Tile Murals
- Repeated Patterns

Hydrotherapy Equipments

- **Sauna Bath**

A sauna is a small room designed to be heated to very high temperatures, with well-controlled humidity. Saunas are used both for recreational and therapeutic purposes, with most people utilizing them as a relaxation tool that provides additional health benefits. The majority of saunas are built of wood, often aromatic, that release pleasing aromas as they heat

- **Jacuzzi**

“Crystal pools” has set the standard for performance, Quality and reliability with a commitment to advanced technology, superior design and innovation. Jacuzzi embodies the ultimate in jetted whirlpool hydrotherapy and ergonomically designed jet systems and water control for a unique therapeutic experience.

- **Steam bath**

A steam bath opens pores, soothes sore muscles, increases circulation, and provides a generally relaxing and healthy experience. People have indulged in steam baths for centuries, as the has practice spread across and among continents. Now, modern technology has enabled the installation of efficient, carefully controlled baths at spas, fitness centers, meditation rooms, and in personal residences.
